

ETH SNIPER

FPS NFT GAME (PLAY TO EARN)

WITH

ETH REFLECTION ON BINANCE
SMART CHAIN

INTRODUCTION

Ethersniper is an FPS play-to-earn NFT game designed to provide the users with a fun experience by Playing with/against strangers to earn real money.

Ethersniper aims to be the greatest FPS game on the blockchain while letting their users enjoy being a part of a mission to earn \$ETS.

The game is deployed on the Binance Smart Chain with Ethereum reflection. Simply hold \$ETS tokens and get rewarded in Ethereum on every transaction.

CORE FEATURES

- Unique auto-reflection feature- 8% of every buy/sell is taken and redistributed to all holders. Simply hold \$ETS tokens and get rewarded in Ethereum on every transaction.
- Profit from your skills- Ethersniper enable gamers to make money off their skill.
- Buyback- A total of 2% of every transaction is being used for buyback, this initiates an upward trend and steadiness in the currency.
- Multiplayer feature- Play against friends for real money and socialize. Ethersniper will become your go-to platform.

ETHERSNIPER PLAY2EARN

Earn by Winning

Bet money on your own skills and earn \$ETS

Earn by Playing

Whether a gamer wins or loses, every time there is a bet you earn ETH reflections.

OUR VISION

Our vision is to build a fair and trusted FPS play to earn game where gamers can play and earn ETH reflection. Gamers earn with their bets, earn ETS for engagement, and exclusive NFTs prizes for winning tournaments.

ETH SNIPER

TOKENOMICS

The Ets token is the native token and primary medium of exchange used within the ecosystem.

5% of Ets used as transaction will be burnt, this decreases the token supply of Ets token, in order to boost the token value for our investors.

Token contract employs a static reward system:

15% tax of every transaction on the platform

8% used for Bep20 Ethereum distribution sent to every holder.

2% used as fuel growth in liquidity pool

5% used for burnt.
